## Education

1 BTEC HND Diploma

GUSTO University, Yangon

February 2022 – July 2024

## Internships

## ② IT Support

AYA BANK (InnoLab) at Yangon

September 2024 – November 2024

- Served as IT support in the Innovation Lab department of AYA Bank.
- Managed the Customer Management Portal, ensuring smooth operation and efficiency.
- Responsible for producing monthly credit and debit reports directly from the database system, refining analytical skills and attention to detail.

## Projects

### 3 Freelance Web Developer

Jonas Schmedtmann (Web Developer / Online Lecturer), Yangon

June 2022 – November 2024

- Managed the entire lifecycle of a modular single-page web application, ensuring timely project delivery and alignment with client objectives.
- Used frameworks like React and JavaScript to design interactive features and optimize performance across devices.

#### 4 Mobile App Development School Project

Yangon

January 2024 – March 2024

- Designed and developed a cross-platform mobile application using Flutter and Dart, as part of a school project.
- Conducted usability testing and implemented feedback to enhance user interface and functionality.

## 5 IoT Group Project

Yangon

December 2023 – February 2024

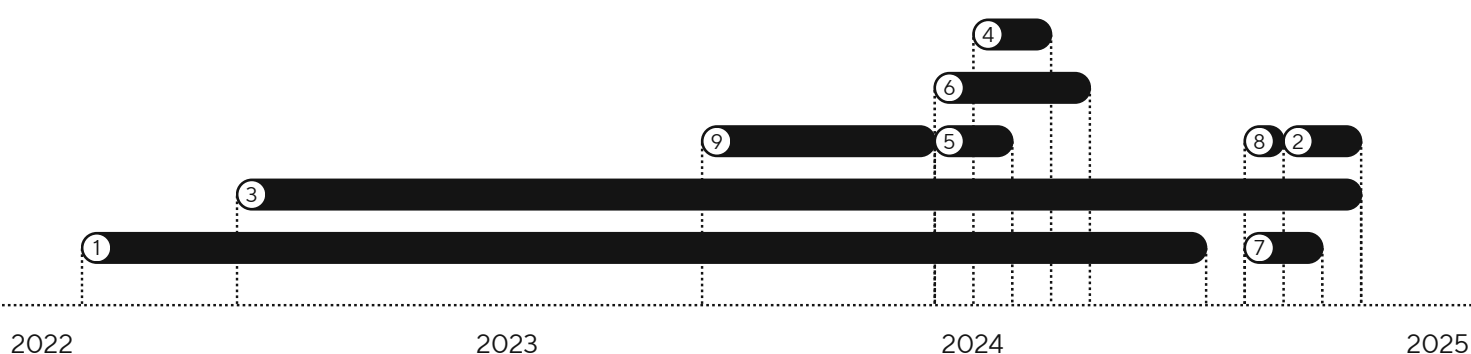

- Integrated obstacle detection sensors and tested functionalities, ensuring adherence to safety requirements.
- Documented the project's progress and delivered detailed presentations to faculty evaluators.

## 6 Big Data Research Project

Yangon

December 2023 – April 2024

- Independently managed the research planning and proposal development phase.
- Conducted extensive primary and secondary research, synthesizing data into an insightful literature review.

- Delivered a detailed final report with actionable insights and recommendations, highlighting effective management of research workflows and outcomes.
